

## **INTRODUCTION**

Holy Trinity Catholic Secondary School has a two-fold objective; to ensure that our students receive the best possible education through the various course offerings while ensuring that the moral, ethical and religious values endorsed by the Catholic Church are taught and practised in all facets of school activities.

This course calendar has been prepared for parents and students. Its objective is to allow you to become familiar with the school so that you will be able to make an informed decision with respect to the educational path of the student. The information it contains includes the latest directives issued by the Ministry of Education for the Intermediate and Senior Division programs leading to diplomas, and post-secondary education or employment.

We know that parents realize that youngsters of today are keen to gain a greater understanding of the Christian vision of life and, as they look for insights into such concepts as spiritualism and existentialism, the Catholic Secondary School will continue to provide a staff with expertise and courses that will alleviate the burden of research for those youths.

Discussion in past years has tended to make known the deficiencies in existing school systems in the area of morals and values. Indeed, Ministers of Education in the province have wanted secondary schools throughout the province to try to inculcate in youngsters, Christian values and morals through a variety of methods. We know that the Catholic School System is best suited to give our Catholic youngsters a continuum of morals and values building from pre-kindergarten to the end of the senior division. As you read this calendar, we hope you will discover the means by which we hope to achieve these objectives.

We invite parents to contact the school if any question arises that is not answered in this booklet. The staff of the school will be pleased to answer your questions.

Yours in Catholic Education,

Brian A. Landry  
Principal
